LIVING HISTORY DISPLAY

The Avenger packed a lot of punch for the US Navy during World War II. Today it's a big bang for the buck at your event.

- The Avenger (aka "the Turkey") was the largest single engine aircraft of WWII standing tall at over 16 feet and 18,000 pounds, making it a prominent display at your event.
- Our CAF Avenger has a unique wing walk stairway allowing your spectators to access the top of the aircraft and view the cockpit and gun turret and doing so without the long lines of other displays.
- Unlike most museums we don't rope off our aircraft, spectators can safely walk around and touch the airplane.

The Avenger is the same type aircraft President George H.W. Bush piloted during WWII. Lieutenant Bush bailed out of his stricken Avenger during a bombing mission on a Japanese held island in the Pacific.

BOOKING THE AVENGER

The TBM is a great value for event organizers. It's an authentic, flying warbird with great spectator and press appeal and a big conspicuous hands on static display at a reasonable price.

We also bring along our own "PX" offering toys and mementos for sale to spectators. The proceeds from PX sales and donations help keep this historic flying museum operational.

Please contact the CAF Rocky Mountain Wing representative for availability and details. But the terms are standard;

- Appearance fee
- Round trip fuel
- Master concession contract exemption
- Hotel rooms for crew
- Transportation for crew

The CAF Rocky Mountain Wing has other aircraft available including a Piper NE-1 "Grasshopper" liaison airplane and CAF member-owned aircraft.

SORTIES

Spectators have the opportunity to fly in this historic aircraft. A 30 minute flight gives a smile that lasts for days.

Few people have the opportunity to fly in an authentic warbird. We offer rides for spectators to enhance their event experience. A ride in the TBM is also a great for grandpa, veterans or to award a deserving employee. Ride sorties can be coordinated with event organizers to provide a flying aircraft during an event as well as pre-show publicity rides.
